The message content features the Axxess logo and a video thumbnail showing a man speaking.

» POINT OF CARE ACCESSIBILITY WITH 100% UPTIME

- Mobile offline capabilities
- Built-in Electronic Visit Verification (EVV)
- Point of care documentation
- Real-time access to client charts

Key Features to Maintain Compliance and Improve Patient Care:

» EMERGENCY PREPAREDNESS INFORMATION

- Ability to assign and update emergency triage level through the Information tab in the client chart
- Templates for special programs to enable agencies to create COVID-19 Emergency Preparedness Plans

Emergency Triage

1 - Life threatening (or potential) and requires ongoing medical treatment. When necessary, appropriate arrangements for evacuation to an acute care facility will be made.

2 - Not life threatening but would suffer severe adverse effects from interruption of services (i.e., daily insulin, IV medications, sterile wound care of a wound with a large amount of drainage.)

3 - Visits could be postponed 24-48 hours without adverse effects (i.e., new Insulin dependent diabetic able to self inject, sterile wound care with a minimal amount to no drainage)

4 - Visits could be postponed 72-96 hours without adverse effects (i.e., post op with no open wound, anticipated discharge within the next 10-14 days, routine catheter changes)

Additional Emergency Preparedness Information

Need assistance during an emergency.

Contact made with local/state emergency preparedness officials regarding client in need of help during an evacuation.

Medical Needs/Equipment (i.e bedbound, oxygen, vent, IV cardiac meds other DME).

» CLIENT MATCHING AND SCHEDULING

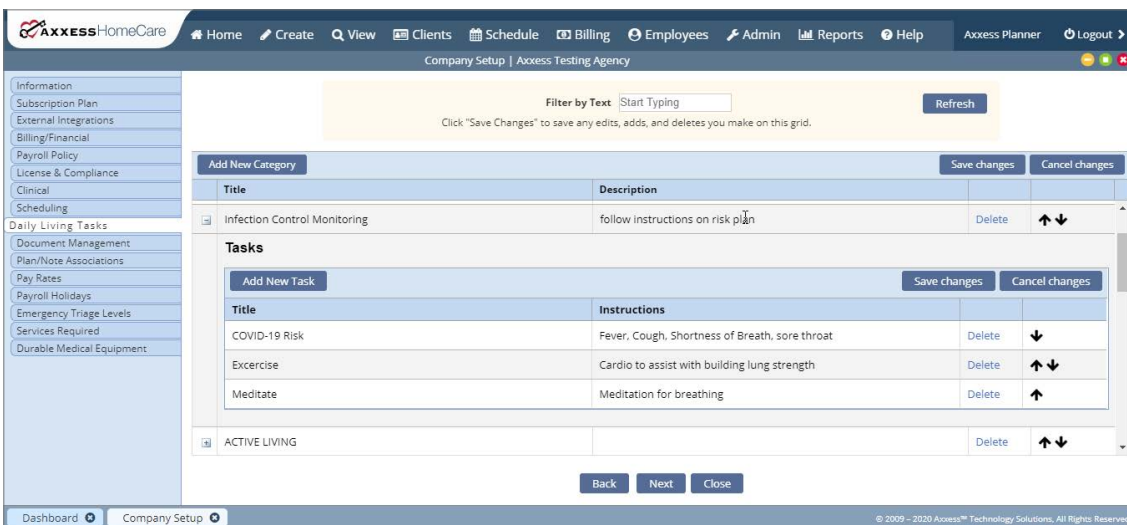

- Streamline scheduling for efficient operations during EMP with both tag feature and matching criteria

The screenshots illustrate the client matching and scheduling interface. The first screenshot shows the 'Full Client | ADAMS, MARCIE' profile with various fields like Address, Contact Info, and Demographics. A 'Tags' field is highlighted with a red box, showing 'Immune Compromised'. The second screenshot shows the 'Edit Client | ADAMS, MARCIE' page with a list of matching criteria such as 'Is a Morning person', 'Prefers someone with Humor', and 'Needs outgoing caregiver'. A 'General' section is highlighted with a red box, containing 'COVID-19 Risk' and 'OK with Smoker'. The third screenshot shows the 'Edit User | Matt Abbot RN' page with a list of preferences like 'very nice', 'knows sign language', and 'enjoys working in the Morning'. A 'General' section is highlighted with a red box, containing 'Low COVID-19 Risk' and 'OK with Client smoking'.

» CUSTOMIZED CARE PLANS

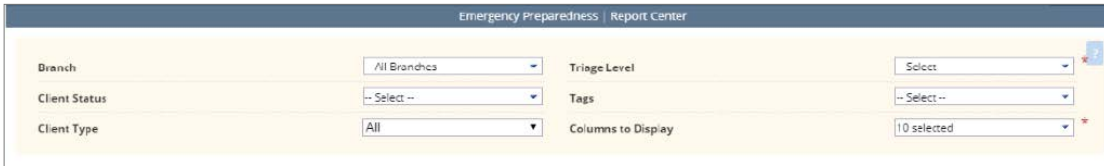

- Custom care plan and notes enable agencies to build specialty program care plans to prepare clients for the pandemic

The screenshot shows the 'Company Setup | Axxess Testing Agency' page. It features a 'Filter by Text' search bar and a 'Refresh' button. Below this is a table with columns for 'Title' and 'Description'. The table contains one entry: 'Infection Control Monitoring' with the description 'follow instructions on risk plan'. Below the table is a 'Tasks' section with an 'Add New Task' button and 'Save changes' and 'Cancel changes' buttons. The tasks table has columns for 'Title', 'Instructions', 'Delete', and arrows for reordering. The tasks listed are: 'COVID-19 Risk' (Fever, Cough, Shortness of Breath, sore throat), 'Exercise' (Cardio to assist with building lung strength), and 'Meditate' (Meditation for breathing). At the bottom, there are 'Back', 'Next', and 'Close' buttons.
