

Axxess Hospice software has built-in emergency preparedness features that empower care anytime, anywhere. These features enable organizations to streamline operations through easy-to-use communication tools, Conditions of Participation-compliant emergency management features, mobile connectivity and automation that empowers clinical staff to work efficiently. Axxess streamlines your workflow so you can focus on providing high-quality patient care.

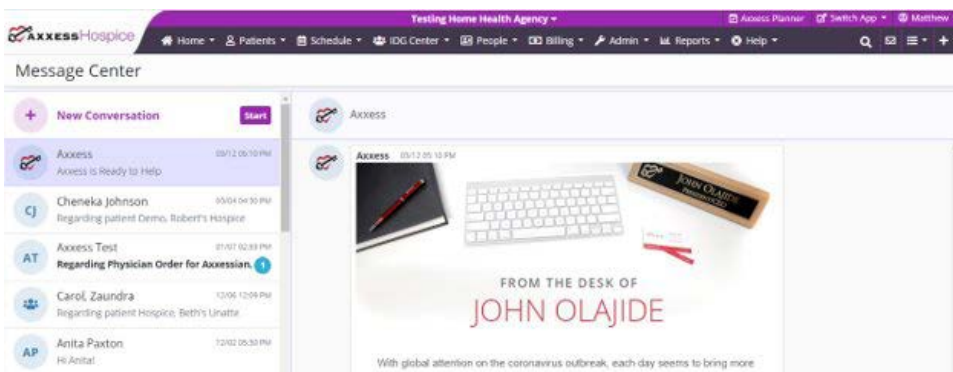

## Key Features to Streamline Operations:

### » INDUSTRY NEWS AND UPDATES ON THE DASHBOARD

### » SECURE MESSAGING ENABLES EFFICIENT TEAM COMMUNICATION

- Collaborate with your teams securely and in real time
- Communicate important updates instantly

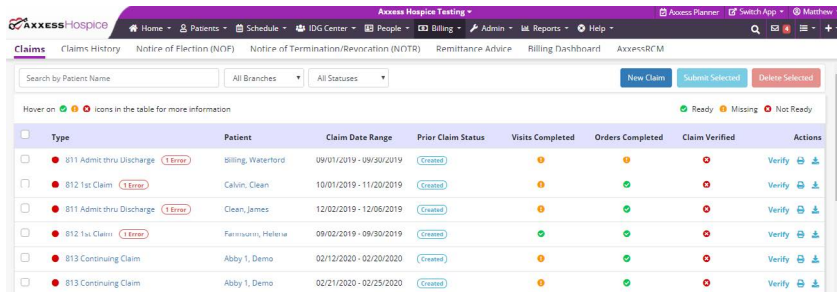

### » POINT OF CARE ACCESSIBILITY WITH 100% UPTIME

- Document anytime, anywhere
- Real-time access to current patient records

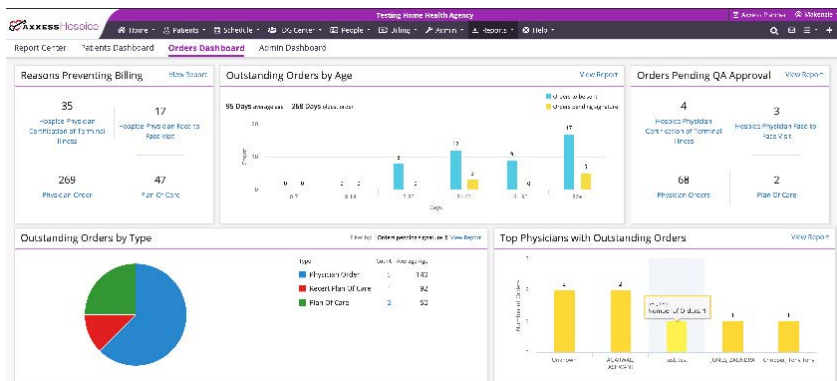

## » AUTOMATED BILLING FROM ANYWHERE

- Direct connections to all payers
- Seamless billing with automated NOEs and NOTRs
- Real-time visualization of the entire billing cycle

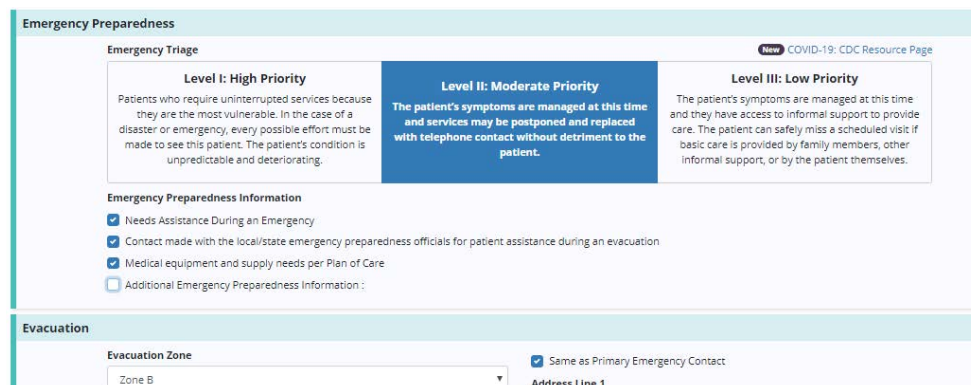

## » ORDER TRACKING

- Automatic order tracking, delivery to physicians, and receipt of signed orders from physicians
- Optimized exchange of data and documentation throughout workflow

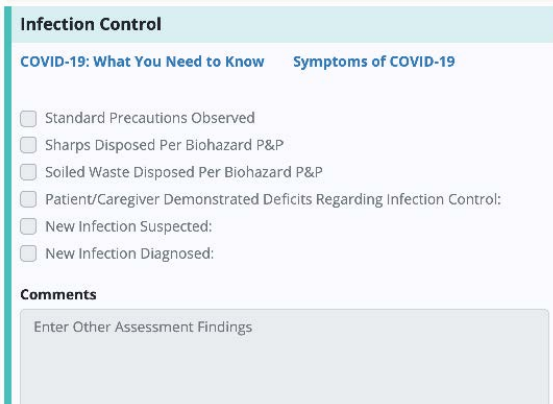

## » ENSURE COMPLIANCE WITH HOSPICE CONDITIONS OF PARTICIPATION THROUGH A PATIENT-SPECIFIC EMERGENCY PREPAREDNESS PLAN

**» INFECTION CONTROL/MONITORING**

- Built-in QAPI to ensure compliance with the Conditions of Participation
- Infection surveillance can be documented every visit. If infection is identified, a report of the infection can be made within the documentation.

**Infection Control**

COVID-19: [What You Need to Know](#)   [Symptoms of COVID-19](#)

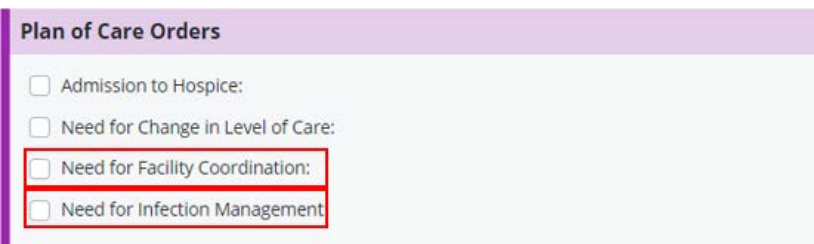

- Standard Precautions Observed
- Sharps Disposed Per Biohazard P&P
- Soiled Waste Disposed Per Biohazard P&P
- Patient/Caregiver Demonstrated Deficits Regarding Infection Control:

03/10/2020   Abbott, Matthew

Plan of Care Updates: Risk for Infection as evidenced by decreased immune defense secondary to St IV Lung Cancer and recent visit from family who had traveled to Europe the week before.  
Patient will remain free from symptoms of infection.  
Patient/caregiver will state symptoms of Covid-19 infection (cough, fever, sore throat, difficulty breathing), appropriate interventions, and when to contact hospice.  
Monitor and report symptoms of infection such as fever over 100.5F, shortness of breath, cough, sore throat.  
Follow Standard Precautions and wear proper PPE, when
