

A healthcare professional, wearing a pink scrubs top and a black apron, is assisting an elderly woman in a yellow shirt. They are in a living room with a brown leather sofa, a white built-in shelf with various decorative items, and a large window with sheer curtains. The professional is holding a small red object, possibly a pill, and the woman is reaching out to touch it. The scene is brightly lit and conveys a sense of care and empowerment.

Requirements for RAP Submission

- Requirements for RAPs have been loosened

 - “The initial visit within the 60-day certification period has been made and the individual is admitted to home health care.”
- Timely submission is now enforced (similar to hospice)
 - RAP must be submitted and accepted by CWF **by the fifth calendar day** within that period of care.
 - Second billing period RAPs can be sent at the beginning of a certification period.
