

EVV Innovation Insights Toolkit

A practical takeaway from AGILE 2026

The EVV Success Framework

Top 4 Takeaways

- EVV is a lifecycle, not a one-time event
- Communication breakdowns drive most issues
- Compliance and revenue are directly connected
- You have the ability to influence the system

EVV Communication Ecosystem

- EVV Data Path: Provider - Vendor - Aggregator - State
- Claim Path: Provider - Vendor - Payer
- Insight: Misalignment between these paths leads to denials

Quick Action on Checklist

Before Go-Live:

- ☐ Join the state and payer listservs
- ☐ Review companion and EDI guides
- ☐ Confirm system configuration
- ☐ Participate in testing

During Go-Live:

- ☐ Monitor EVV data transmission
- ☐ Track denials and warning
- ☐ Escalate issues quickly

Ongoing:

- ☐ Audit EVV vs submitted data
- ☐ Correct issues immediately
- ☐ Continue billing consistently

Industry Insight

This framework reflects real-world implementation insights and operational strategies developed through collaboration between IYC Consulting and Home Care Network Inc. IYC Consulting continues to support organization in navigating EVV complexity, strengthening compliance, and protecting revenue through strategic advisory and industry expertise

Final Thought

Master the process. Strengthen communication. Protect your revenue
