

The Coffee Machine Test: Will your Healthcare Change Stick?

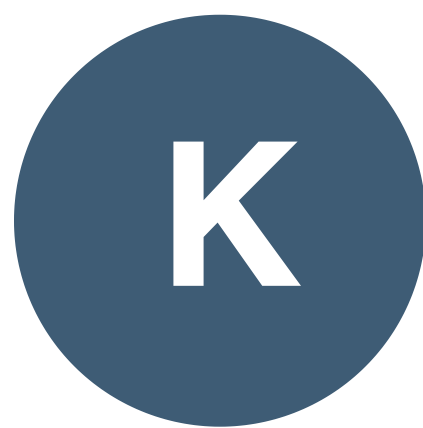

Lasting healthcare transformation requires more than new processes, it requires people to move through change successfully. The ADKAR model provides a clear, human-centered roadmap to drive adoption, engagement, and long-term results (Ball, K, 2024).

I understand what is changing and why this change is taking place.

I have decided to participate in and support this change

I have the knowledge i need on how to make this change

I am able to make this change

I will continue to make this change
